

FATAL ACCIDENT TO A YOUNG CAROLINIAN.—The Augusta train yesterday brought to the city the remains of a young man named Theo. Farmer, a native of Williamston, S. C., who was killed on the Western and Atlantic Railroad, on Saturday last, at a point near Chattanooga. He was employed as train hand, and was standing on the top of the car, when he was knocked off while passing under a bridge, and instantly killed. His body was forwarded by the Company to his home at Williamston, where his father, Elijah Farmer, resides, and is accompanied by Mr. Hamilton, a Carolinian also, residing in Atlanta, who was one of the few acquaintances of the deceased youth. He was a young man, only nineteen years of age.—*Carolinian*, 13th inst.

THE AMERICAN

Button-Hole, Overseaming
AND
Complete Sewing Machine.

THE first and only BUTTON-HOLE AND SEWING MACHINE combined that has made its advent in this or any other country. The following reasons are given why this is the

Best Family Machine to Purchase.

1. Because it will do everything that any machine can do, sewing from the finest to the coarsest material, hemming, felling, cording, braiding, binding, gathering and sewing on, at the same time ruffling, quilting, etc., better than another machine.
2. Because the tensions are more easily adjusted than any other machine.
3. Because it can work a beautiful button-hole, making as fine a pearl as by the hand.
4. Because it will embroider over the edge, making a neat and beautiful border on any garment.
5. Because it will work a beautiful eyelet-hole.
6. Because it can do over-hand seaming, by which sheets, pillow-cases and the like are sewed over and over.
7. Because you can quickly raise or lower the feed to adapt it to thick or thin cloth.
8. Because you have a short, deep bobbin, by which the thread is constantly drawn from the centre; the tension is consequently even, and does not break the thread.
9. Because the presser-foot turns back; that the cloth can be easily removed after being sewed.
10. Because the best mechanics pronounce it the best finished and made on the best principle of any machine manufactured. It has no springs to break; nothing to get out of order.
11. Because it is two machines in one. A Button-hole Working and Sewing Machine combined.

No other Machine can accomplish the kind of sewing stated in Nos. 3, 4, 5 and 6. Parties using a family sewing machine want a WHOLE MACHINE, one with all the improvements.

It is to last a LIFETIME, and therefore one is wanted that will do the most work and do it the best; and this machine can do several kinds of sewing not done on ANY OTHER MACHINE, besides doing every kind that all others can do.

The American or Plain Sewing Machine, (Without the button-hole parts,) does all that is done on the Combination except button-hole and over-seaming.

Read the following report of the Committee on Sewing Machines at the Massachusetts Mechanics' Charitable Association Fair:

The American Button-Hole, Overseaming and Sewing Machine Combined.—This is a new invention which is just working its way into public favor, and is destined without doubt, to take a front rank among the first-class Family Sewing Machines, combining, as it does, in one machine, the ability to do all the various kinds of plain and fancy sewing done on any first-class machine, and also the working of button-holes and over-seaming. Neat in design, well made, of good material, and requiring but a few moments to change from a Button-Hole Machine to a plain Sewing Machine, and your Committee deem it well worthy of the highest premium in the gift of this Association, and award a Gold Medal.

At the Mechanics' Fair, held at Concord, N. H., the American Button-Hole, Overseaming and Sewing Machine Combined, received a Gold Medal as a perfect Machine. Report of Committee:

This machine, while it possesses all the qualifications of other first-class Shuttle Family Sewing Machines, has combined the Overseaming and Button-Hole making, which many machines cannot do, and in addition, the making of a fine needlework, after publication, not only for its combination, but for its simplicity, and rapidity with which it can be changed from one kind of work to another. The committee were much pleased with the fine finish, workmanship, and rapidity with which this pioneer of a machine did its work, and the committee take great pleasure in awarding to it the highest premium, as a perfect Family Sewing Machine, a Gold Medal.

Examine them before purchasing any other Sewing Machine.
